2. zikloa**

This year we started a new Comenius project called:  
**WHAT YOU EAT IS WHAT YOU ARE**

### **We participate because we want**

- to know our eating habits
- to learn from the others
- to present our school on the web
- to change wrong attitudes toward Europeans
- to be in touch with other European countries

### **What happened?**

Students and parents have been informed,  
5th and 6th students made a LOGO,  
two schoolteachers went to Budapest and to Bremen for some project meetings,  
4th, 5th and 6th level students had to fill in a questionnaire about eating habits,  
created the COMENIUS CORNER (information stand),  
we were in contact with other students by sending e-mails, writing poems, drawings... and we also received some of them.

### **What are we going to do?**

We are going to create a common dictionary (some basic words about food in seven languages),  
present some typical basket recipes to the rest of the schools (3 starters, 3 main courses and 3 desserts),  
add these things to our school website and to the common website

### **Participating countries:**

KGS Kirchweyhe	Bremen , Germany
Hundayi Janos Atalanos Iskola	Budapest, Hungary
Liceo Scientifico L.B. Alberti	Cagliari, Italy
Technisch Instituut O.-L.-Vrouw	Tongeren, Belgium
Escola Basica 2º e 3º ciclos	Calheta-Madeira, Portugal
C.E.P. Uribarri L.H.I.	Bilbao

### **This project helps us to improve:**

English because we try to translate the e-mails we send and the e-mails we receive,  
Geography because we want to know more about other countries and  
Science because we talk about healthy food
